## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1 December 2003 has been entered.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the liquid barriers comprising part of the liquid-permeable surface layer and part of the liquid-impermeable surface layer, as described in claim 17, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Figure 3 is drawn to Species 1, described in claims 1, 2, 4, 5, 6, 8, 9, 10, 11, 12, 14, 16, and 18.

Figure 4 is drawn to Species 2, described in claims 20 and 3.

Figure 5 is drawn to Species 3, described in claims 1, 2, 4, 8, 9, 11, and 18.

Figure 6 is drawn to Species 4, described in claims 20 and 3.

Figure 7 is drawn to Species 5, described in claims 1, 2, 5, 8, 9, 10, 11, 16, and 18.

Figure 8 is drawn to Species 6, described in claims 20 and 3.

Figure 9 is drawn to Species 7, described in claims 1, 2, 8, 9, 11, 14, and 18.

Figure 10 is drawn to Species 8, described in claims 20 and 3.

Figure 11 is drawn to Species 9, described in claims 1, 2, 8, 9, 11, and 18.

Figure 12 is drawn to Species 10, described in claims 20 and 3.

Figure 13 is drawn to Species 11, described in claim 19.

Figure 14 is drawn to Species 12, described in claims 1, 2, 4, 7, 8, 9, 11, 13, 15, and 18.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
